Hi,

I am an Honours year student at RMIT University studying Industrial Design. My final year project is built around Age Related Macular Degeneration (AMD) and am investigating how people with AMD manage visual tasks within the home.

If I may ask for advice on how I may be able to contact:

- people living with AMD,
- professionals and people that are involved with the support, care and treatment of people with AMD

I would like to conduct face-to-face interviews where possible over the next two months. I am located in Balwyn, Victoria and am able to travel within the state. I understand the head office is located at:

454 Glenferrie Road Kooyong

Thank you for taking the time to read this.

Best Regards,

Daud Imran Shamsul Amri
